PROFESSIONAL SUMMARY

Computer Science and Engineering student interested in Data Analytics and Data Science, with internship experience in logistics analytics and Power BI dashboard development. Familiar with Excel, SQL, Python, and web technologies, with creative skills in Canva and DaVinci Resolve.

TECHNICAL SKILLS

- **Data Analytics & Visualization:** Microsoft Excel, SQL, Power BI, Data Cleaning, Data Visualization
- **Programming Languages:** Python (Basics), JavaScript
- **Web Technologies:** HTML, CSS
- **Development & Creative Tools:** Google Colab, Canva, DaVinci Resolve

INTERNSHIP EXPERIENCE

AI & Data Science Intern | FemtoSoft Technologies 09 June 2026 – 09 July 2026

- Successfully completed a one-month internship focused on Artificial Intelligence and Data Science concepts.
- Worked on a Supply Chain Logistics Dashboard to analyze and present delivery performance and operational metrics.
- Utilized Power BI to create visual representations of logistics data and improve the accessibility of business insights.
- Used Google Colab for Python-based data exploration and analysis related to the logistics project.
- Gained practical exposure to data-driven problem-solving and the application of analytics in logistics operations.

PROJECTS

AI-Powered Smart Logistics Intelligence / Control Tower Power BI, Python, Google Colab

- Worked with logistics datasets to explore delivery performance, shipment information, and operational indicators.
- Developed an interactive Power BI dashboard to present key metrics through visualizations and reports.
- Utilized Google Colab for Python-based data analysis and prediction-related project activities.
- Focused on transforming logistics data into meaningful insights for operational monitoring and decision-making.

GitHub Profile Analyzer HTML, CSS, JavaScript

- Developed a web-based application to retrieve and organize information from GitHub user profiles.
- Designed a user-friendly interface to display profile information and repository-related details.
- Applied front-end development concepts to structure, style, and organize the application's interface.

SMDRT Logistics Intelligence Platform Database Project

- Worked on a database-oriented project focused on organizing and managing logistics-related operational information.
- Explored structured data and logistics metrics to support efficient information presentation.
- Prepared dashboard and report views to make operational information easier to understand.

EDUCATION

B.E. – Computer Science and Engineering 2023 – 2027
University College of Engineering, Nagercoil, Anna University

Higher Secondary Certificate (HSC) – 74% 2022 – 2023
Sir CP Memorial Government Higher Secondary School

Secondary School Leaving Certificate (SSLC) – 100% 2020 – 2021
Amala Matric Higher Secondary School

CERTIFICATIONS

- Wadhwani Foundation – Ignite Bootcamp
- Infosys Springboard – Artificial Intelligence
- Continuous Integration and Delivery (DevOps)
- Ethical AI
- Agile Methodology
- Basics of Business Communication

ACHIEVEMENTS

- Best Debut Film: "CAIN" – MEI International Film Festival.
- Second Prize: Poster Design – AI in Future Education Symposium.
- Second Prize: Short Film Contest.

ADDITIONAL INFORMATION

- **Languages:** Tamil, English, Hindi
- **Soft Skills:** Problem Solving, Communication, Teamwork, Creative Thinking, Adaptability
